Workers compensation is a complex and misunderstood area for many businesses. Is workers compensation causing you pain? Then let us help you get back On Track.

Workers Compensation touches all sectors and staff in your organisation. On Track empower and educate your senior management team and assist them to identify areas of potential improvement. Aligning you organisational needs with legislative requirements allows staff to increase effectiveness, take control and reduce future economic loss. On Track offers a full range of services to assist you to take control of workers compensation through Injury, Claims & Strategic Management.

Based in Sydney, NSW, On Track Injury Consulting provides professional consulting services directly to employers for 'Injury and Workers Compensation Management & Systems' to all industry types. We believe in building and sustaining long-term client relationships and not just quick fixes.

On Track will assist you to implement a self-insurance approach. This unique approach places you in control and allows you to manage your injuries and claims and save money with your workers compensation.

The fact that we become trusted advisors is a good indication of the esteem in which we are held.

POSITIVE OUTCOMES THROUGH PARTNERSHIP

“On Track Injury Consulting has helped us streamline our workers compensation procedures and we have much better systems in place now. Our return to work time has also been reduced by around 40%”. Steve Clancy NSW Manager Staff Australia”

At On Track we work with clients to develop a pro-active and relevant rehabilitation plan that has defined goals and a defined purpose. The procedures involved in this approach are addressed through a number of elements: Education & Culture, Internal & External Communications and Operational. We call this our ‘Model for Transformation’.

HOW DO WE CREATE POSITIVE CHANGE?

- Initial on-site needs assessment to identify gaps in Injury and Workers Compensation Management & Systems
- Regular reporting to assist you to take control and identify areas of potential improvement and big savings
- Auditing and compliance to the Workers Compensation Act and Regulations
- Work closely with internal stakeholders to develop policies and procedures to meet compliance in Workers Compensation Management.
- Work closely with stakeholders to develop and implement the right tools to measure, monitor and control risk
- Deliver workable and sustainable solutions
- Onsite training and coaching to all stakeholders in relation to Risk & Injury Management

Next Steps: We have the expertise, industry knowledge and testimony from SME's to large & Government corporations, including Toshiba, ANSTO, Angus and Robertson, Staff Australia, Enware, Qantas, Woolworths, GWA Group, and Fitness First.

Getting your 'Injury and Workers Compensation Management & Systems' right is a smart move that will give your organisation the competitive edge. It makes sense to bring in the experts to save you time and money, increase effectiveness and improve efficiency.

On Track Injury Consulting is the right choice to get your company back On Track.
